SCRUM PRODUCT BACKLOG

ID No.	Category	User Story	Acceptance Criteria	Priority	User Story Points	Value Points	Value for Money Points	Sprint	Status
1	Database Feature	As a web developer, I want to be able to store articles and contact information, so that I can easliy access them for retrieving purpose.	Given I want to search for an article, when I use the search bar, then I can see the related articles retrieved from the database. Given I want to look for a contact information, when I have a database, then I can look on tables that contacts belongs to.	Must	34	144	4.235294118	1	Completed
2	Administrative	As a website owner, I want to be able to manage the articles and contents in my website so that I can modify/control my website.	Given I want to sign into the website, when I fill in the "email" and "password" fields with valid inputs, then I get signed in the website and see the "manage your contents" page where I can see all the articles and contents published on the website. Given I want to sign into the website, when I fill in the "email" and "password" fields with invalid inputs, then my access would not be granted.	Should	13	144	11.07692308	1	Completed
3	Search Feature	As a website visitor, I want to have an option of search so that I can search and access articles/contents faster.	Given I visit the website, when I go to the search bar, then I can search for certain keywords or article. Given I entered the words, when I click "enter button", then articles/contents from the database will appear.	Would	2	55	27.5	1	Completed
4	Inquiry Feature	As a website visitor, I want to be able to find the contact of website owner so that I can send a messages or inquire about my questions quickly.	Given I visit the website, when I go to "Contacts", then I can see social media accounts, an email address of the owner, and a contact form. Given that I filled up the contact form, when send button is clicked, then the details in the contact form will be sent and store to the database.	Could	2	55	27.5	3	To be started
5	Features	As a website visitor, I want to have an option of subscription so that I can be updated with articles.	Given I want to sign into the subscription program, when I fill up the following forms and clicked "subscribe", then my provided details would be sent and stored in the database. Given I already subscribed, when new contents get published, then I can receive an email notification about the update.	Should	3	21	7	2	Completed
6	Features	As a website visitor, I want to be able to be directed to petitions, so that I can sign a petition for movements.	Given I visit the website, when I click the petition boards, then I will be directed to external sites that hosts petitions.	Should	5	89	17.8	2	Completed
7	Features	As a website visitor, I want to be able to be directed to a donation site, so that I can donate to related organizations.	Given I visit the website, when I click the donation button, then I will be directed to external sites that holds donation drive for cause-related organizations/movements.	Must	5	55	11	2	Completed
8	Features	As a reader, I want to see an organize structure of articles within designated tabs so that it is easier to navigate and understand the topics.	Given I visit the site, when I go to the tabs containing articles/contents, then I will see all the articles related to a certain topic.	Should	13	55	4.230769231	1	Completed
